Workshop Description: Shimmering Iridescent Scarves. Using open double weave on 4 or 6 shafts, you will weave two cowl scarves that **glow** throughout, using four colors. This magical, color-shifting fabric might be the ultimate example of iridescence! Each scarf weighs less than an ounce and is slightly more than a yard in length. You will weave one scarf with a specific treadling and color variation, and the second can be experimental, with as many as six changes in treadling and color placements to create a variety of color and weave effects. We will explore the factors that influence and enhance iridescence for creating your own designs. This workshop is perfect for any experience level. Beginners must be familiar with their loom and have a basic knowledge of weaving. This project will be done on a 4 or 6 (6 preferred) shaft loom.

Dates: Friday and Saturday, May 8th and 9th, 2020 Time: 9 am – 4:30 pm.
