

The Handweaver's Guild of Boulder presents

Susan Brooks in Eco Dying and Printing

Enjoy 2 days of learning and working with fellow fiber artists as Susan teaches the basic of transferring plant images onto paper, fabrics, and sketchbooks. You will learn about the chemistry of eco-dyeing. What works and what doesn't! About pre and post mordants and dyes - both pre dyeing papers and using dye pots to transfer colors; using thickened dyes to transfer images from thermofax screens, stencils or stamps. A third day can be arranged with the class, directly with Susan at the workshop to turn your work into a Journal

DATES Saturday and Sunday September 17th and 18th

LOCATION 2330 Senator Court Louisville, CO 80007

Full Name: _____

Address: _____

City: _____ **State:** _____ **Zip/Postal Code:** _____
